2014 Dr. John B. Nesbitt Physician Philanthropist of the Year

---

Denise A. Johnson, MD, Chief Medical Officer, was the recipient of the 2014 Physician Philanthropist of the Year award. She and her husband, Anthony, not only consistently support Meadville Medical Center and the community financially; but, they have without fail exhibited exemplary qualities that encourage others to become involved in community events and activities.

These selfless individuals are always willing to go the extra mile, which is proven by their expansive presence in the community.

Meadville Medical Center Foundation is extremely grateful for their generosity throughout the years!
