

# KEVIN KRAELING

2015 Dr. John B. Nesbitt Physician Philanthropist of the Year

---

Kevin R. Kraeling, DO personifies what it means to be a philanthropist by doing whatever it takes to ensure that compassion and quality are at the forefront of healthcare at Meadville Medical Center. He remained a steady figure in the Emergency Department during the transition between agencies while emerging as a key supporter of the Foundation during a recent resurgence of philanthropic physicians.

Dr. Kraeling and his wife, Kelly, are not only great individuals, but they are kind and very giving of themselves. Together they are making a major impact on the fabric of our community.

Meadille Medical Center is extremely grateful for their generosity.
