Travel Medicine

Travel Medicine is a specialized area of healthcare focused on protecting international travelers from disease and illnesses.

When Should I See The Travel Medicine Specialist?

As soon as your itinerary is set, please call us to schedule your appointment. It would be ideal to see you early to discuss your health needs and prevention prior to travel. Ideally vaccines should be completed four to six weeks prior to travel.

How Long Will The Visit Take?

• Most visits take approximately 30-45 minutes
• Make sure to bring the following with you to your visits:
  • List of medications
  • Insurance cards
  • Copayments or form of payment

Services

Our visits are designed specifically for you and your needs. The Travel Medicine Specialist will review your itinerary and design specialized travel medicine recommendations after conducting a quick review of your past medical history. All visits are specialized for the patient and region you are traveling. We also review other routine vaccinations and make sure you are up to date. There are recommend and required vaccinations for your trip.

Immunizations:
• Yellow Fever Vaccine
• Typhoid
• Tetanus
• Tdap
• Hepatitis A & B
• Influenza vaccine

Medications: Malaria prescriptions

Food/Water Precautions

Insect Precautions

Infectious Disease & Travel Health of Meadville is an approved site by the Pennsylvania Department of Health to administer Yellow Fever Vaccine. We will provide an official certificate of vaccination which maybe required to enter certain countries. It is important to check with your insurance provider directly to see if you have Immunization Coverage.
